

Bubble Effect Machine

TL-SL641B

Description:

The 300W bubble machine has the characteristics of small size, convenient movement, high bubble rate, and wireless remote control. Adopting the double-wheel high-speed bubble output, and turning the blower up, the machine has good stability, more bubbles, even rate, large coverage, and no noise. It is widely used in various performances and celebrations.

Feature:

- * Blowing height: 10 meters.
- * Duration: 50 minutes.
- * Coverage: 200 square meters.

Specifications:

Model	TL-SL641B
Input voltage	AC 110-240V 50Hz, 300W
Fuse	10A/250V
Control mode	Remote control (30 meters), manual control
Bubble liquid capacity	2.5L
Protection level	IP20
Product size (L×W×H)	415×345×380mm
Package size (L×W×H)	435×360×400mm
Gross weight	7.5kg
Net weight	6.8kg
