

Description

It is suitable for the lighting of buildings, curtain walls, residential areas, commercial plazas, high-end office buildings, bridges, highways, etc.

Features

- * Reasonable heat dissipation path design enables the heat of the LED to be quickly conducted through the luminaire structure to ensure the luminous efficiency and lifespan of the LED;
- * Waterproof, dustproof and corrosion resistant;
- * Uniform luminescence, high luminous brightness.

Specifications

| | |
|------------------------------|--|
| Model | TL-LH5302 |
| Input voltage/power | AC220V/50Hz/18W |
| Number of LEDs/light sources | Epistar/18PCS |
| Beam angle | 30° (15, 45, 60° optional) |
| Color temperature | 3000K (1900, 2100, 4000, 5700K optional) |
| Installation method | Fixed |
| IP rating | IP65 |
| Product size (L×W×H) | ∅108×300mm |
| Certification | CE/ROHS |
